METAMASK INSTRUCTIONS

HOW TO ADD THE BSC NETWORK TO METAMASK

Open your Metamask extension

- 1) To add a network, click on "Ethereum mainnet" in the top right

How to add a network

2) Click on »Add network« below

The screenshot shows the MetaMask web interface. At the top, the browser address bar displays 'extension://ejbalbakopchighcedalmeeajnimhm/home.html#'. The main content area features the MetaMask logo and 'Account 1' with address '0xC6F...6987'. Below this, the balance is shown as '0 ETH' and '\$0.00 USD'. There are buttons for 'Buy', 'Send', and 'Swap'. A 'Networks' dropdown menu is open in the top right corner, showing 'Ethereum Mainnet' as the selected network. A red circle highlights the 'Add network' button in the dropdown menu, with a blue circle containing the number '2' next to it. The 'Assets' section below shows '0 ETH' and '\$0.00 USD' with a right arrow. At the bottom, there is a link to 'Contact MetaMask support'.

- 3) Find or type »BNB Smart Chain (previously Binance Smart Chain Mainnet)« in the search bar
- 4) And click »Add«

About

Networks > Add a network

Add from a list of popular networks or add a network manually. Only interact with the entities you trust.

Popular custom networks

Arbitrum One	Add
Aurora Mainnet	Add
Avalanche Network C-Chain	Add
BNB Smart Chain (previously Binance Smart Chain Mainnet)	Add
Fantom Opera	Add
Harmony Mainnet Shard 0	Add
Optimism	Add
Palm	Add
Polygon Mainnet	Add

[Add a network manually](#)

5) Click »Approve«, to add the network

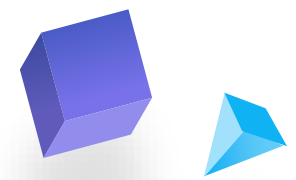

The screenshot shows the MetaMask interface with the 'Settings' page open. The 'Networks' section is selected, and the 'Add a network' dialog box is displayed. The dialog box contains the following information:

- Network name:** BNB Smart Chain (previously Binance Smart Chain Mainnet)
- Network URL:** https://bsc-dataseed.binance.org/
- Chain ID:** 56
- Currency symbol:** BNB

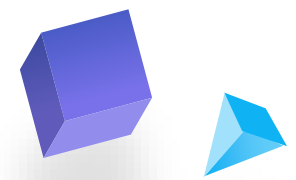

The 'Approve' button is circled in red and has a blue circle with the number '5' next to it. The 'Cancel' button is also visible.

6) Switch to BNB Smart Chain

The screenshot shows the MetaMask interface with a success notification dialog box. The notification text is: "Network added successfully!" followed by a blue button labeled "Switch to BNB Smart Chain (previously Binance Smart Chain Mainnet)". A red circle highlights this button, and a purple circle with the number "6" is placed next to it. Below the button is a "Dismiss" button. The background interface shows "Account 1" with "0 ETH" and "\$0.00 USD" balance, and a network dropdown menu currently set to "Ethereum Mainnet".

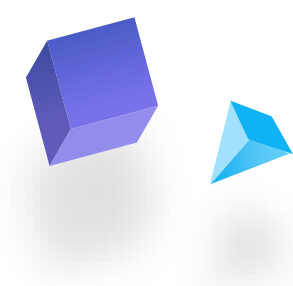

7) Then click on »Got it«

The screenshot shows the MetaMask web interface. At the top, the browser address bar displays 'extension://ejbalbakoplchghcdalmeeajnimhm/home.html#'. The MetaMask logo is in the top left, and the current network is 'BNB Smart Chain (previously Binance Smart Chain Mainnet)'. The main content area shows 'Account 1' with address '0xC6F...6987'. A central dialog box titled 'You have switched to' displays the new network: 'BNB Smart Chain (previously Binance Smart Chain Mainnet)'. Below this, it lists 'Things to keep in mind':

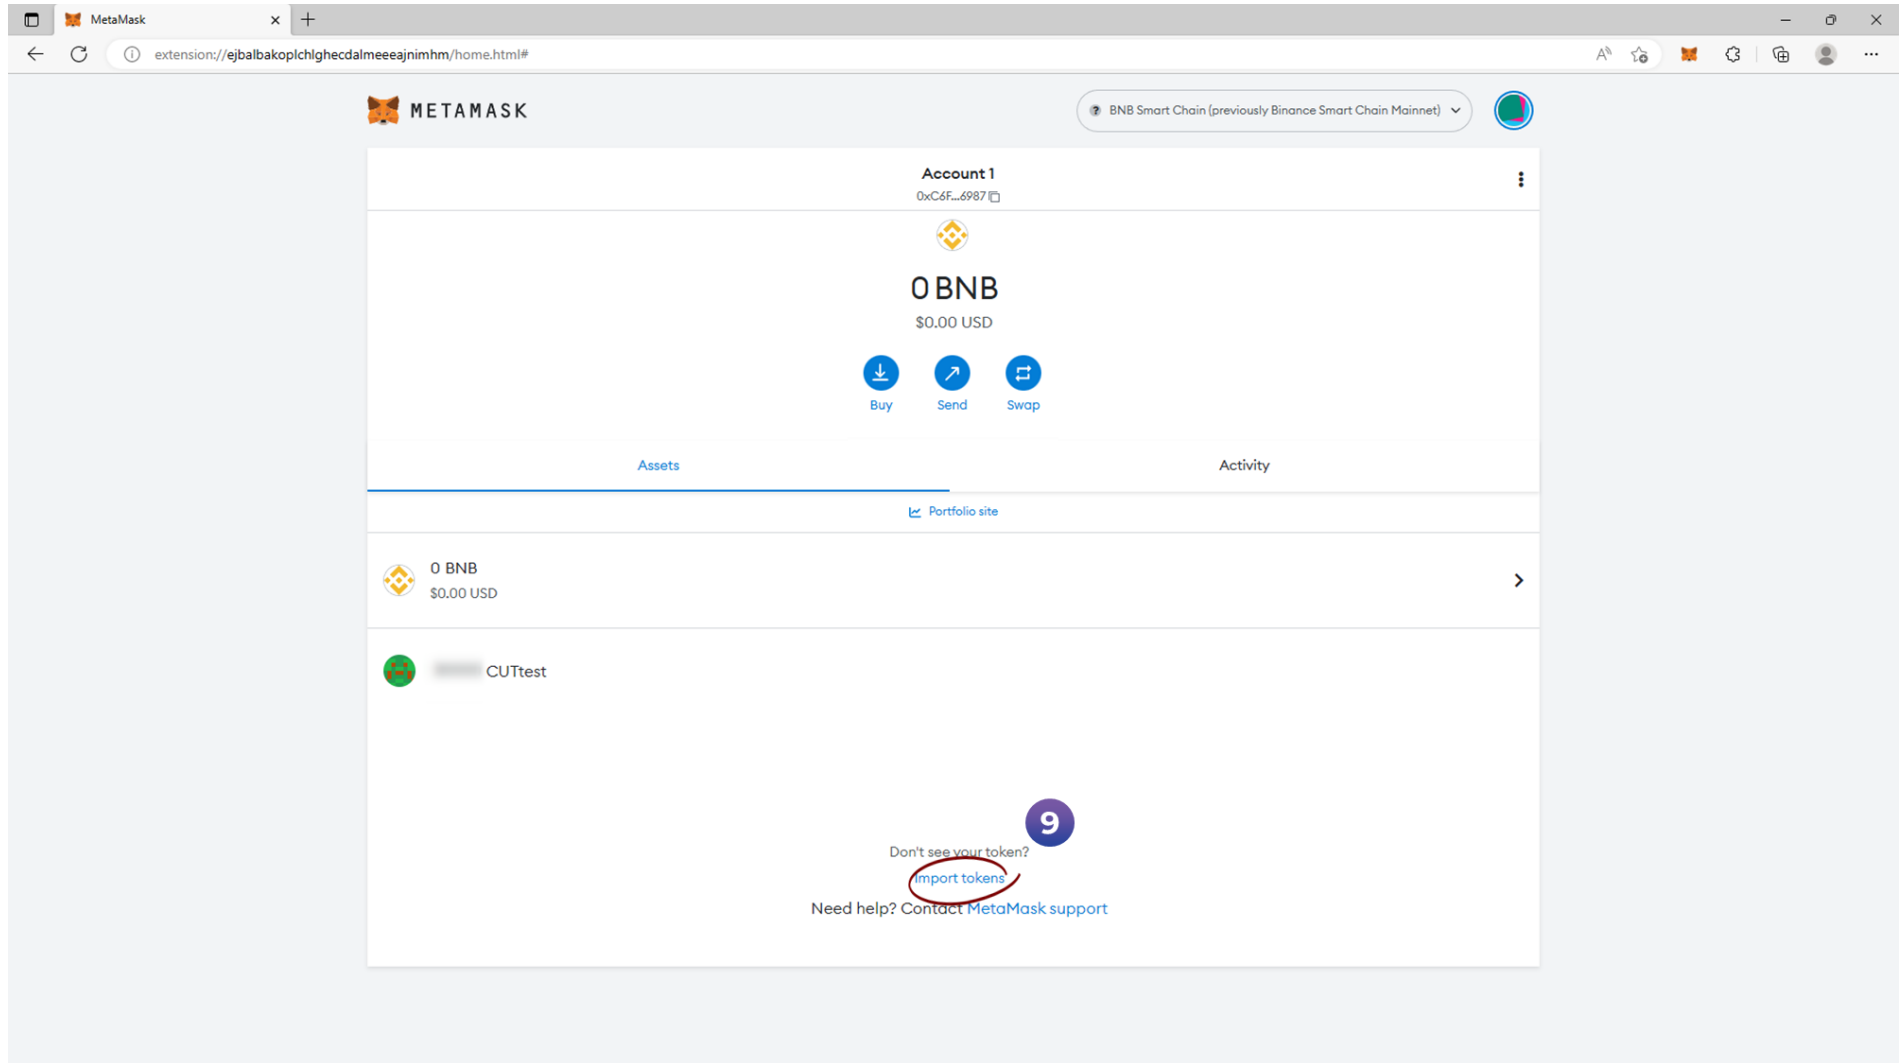

- The native token on this network is **BNB**. It is the token used for gas fees.
- If you attempt to send assets directly from one network to another, this may result in permanent asset loss. Make sure to use a bridge. [Learn more](#)
- Your tokens may not automatically show up in your wallet. [Click here to manually add the tokens.](#)

A blue 'Got it' button is at the bottom of the dialog, circled in red with a purple '7' in a circle next to it. The background shows the 'Assets' section with '0 BNB \$0.00 USD' and an 'Activity' section. At the bottom of the page, it says 'Need help? Contact [MetaMask support](#)'.

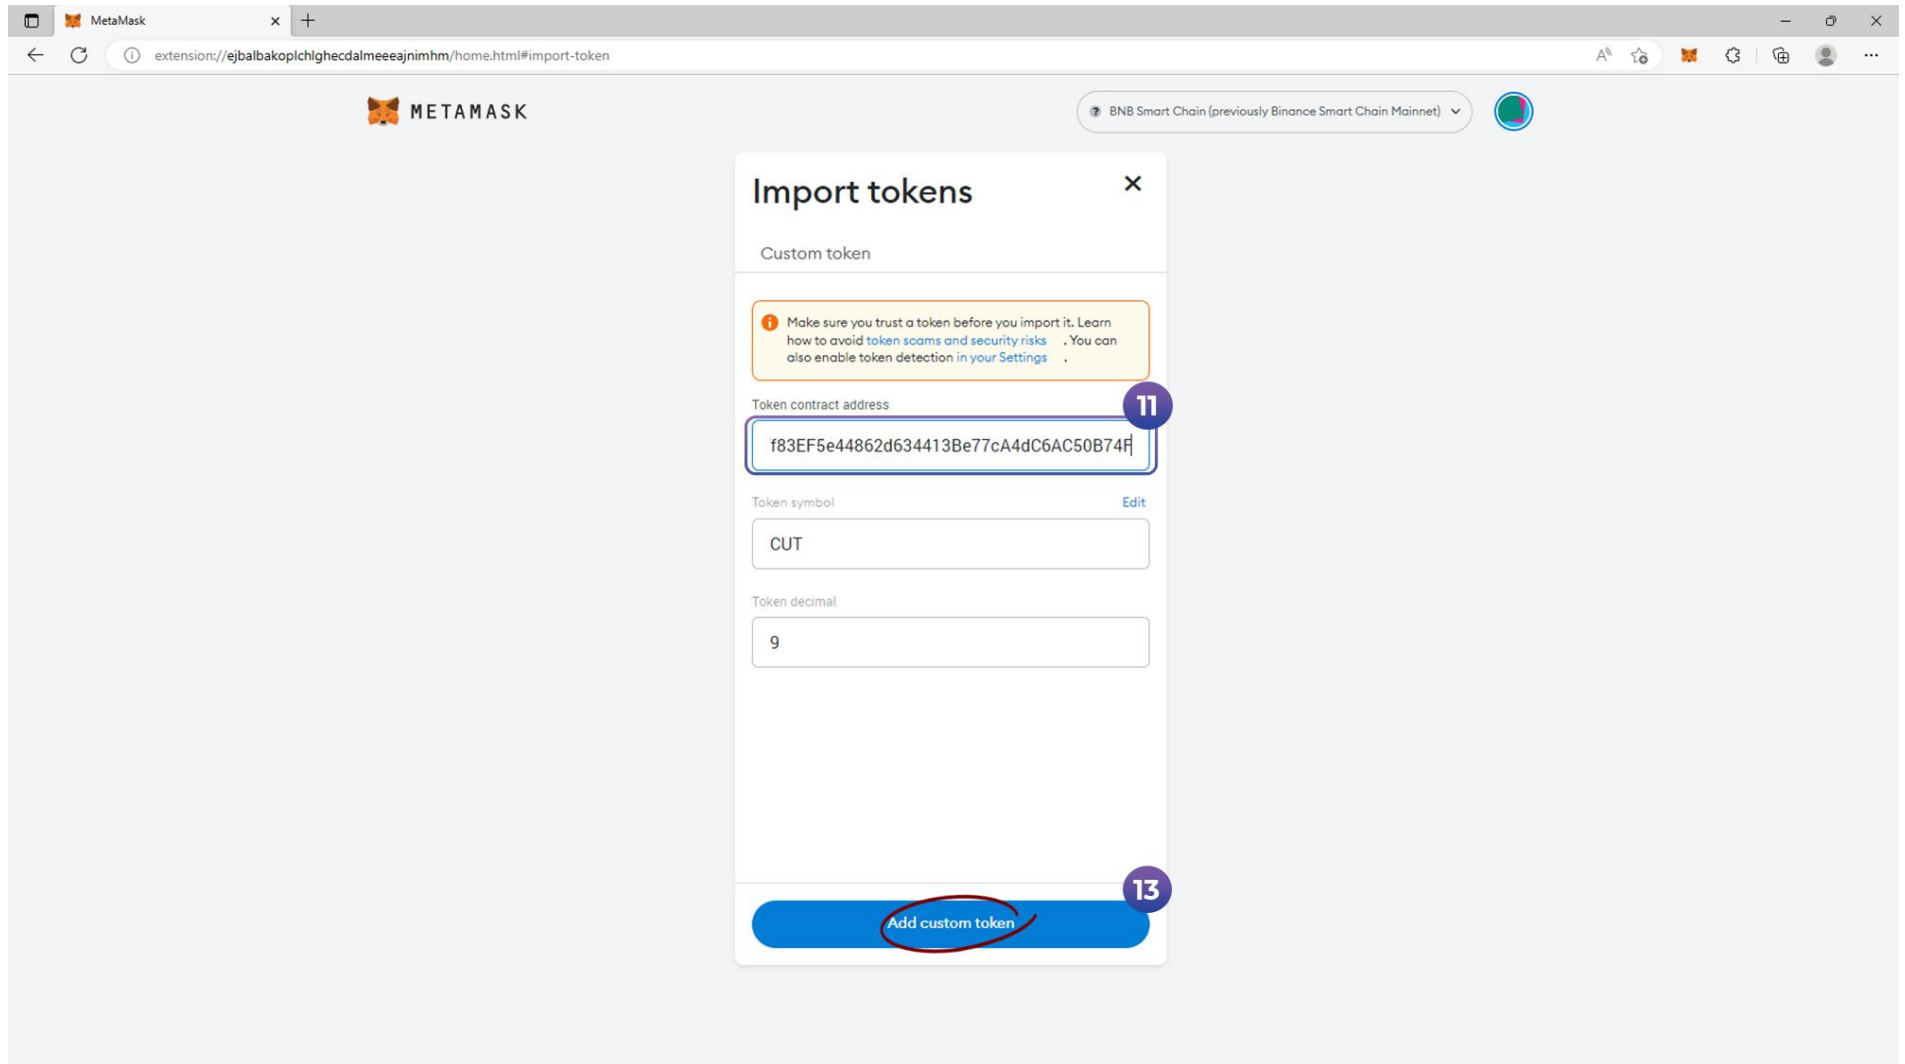

NOW WE WILL ADD OUR CUT TOKEN

- 8) Go to the BNB Smart Chain homepage
- 9) On the lower half of the page find where it says »Don't see your token?« and click on »import tokens«

- 10) The »Import tokens« window will open
- 11) In the »Token contract address« field paste the CUT token's address: **0xB1ff83EF5e44862d634413Be77cA4dC6AC50B74F**
- 12) When you paste the address, the rest fills out automatically
- 13) Then click on »Add custom token«

14) To finish, click on »Import tokens«
